INTRODUCTION

CHITKARA UNIVERSITY

"Welcome to AdoptaDoggo: Your Ultimate Destination for Adopting Dogs!“

• Welcome to AdoptaDoggo, where we believe that every dog deserves a loving home.

• At AdoptaDoggo, we're passionate about connecting people with their perfect furry companions while promoting responsible pet ownership.

• By adopting from AdoptaDoggo, you're giving a second chance to a dog in need. Each adoption not only changes the life of the dog but also opens up space for another dog to be rescued.

WHY?

- **User friendly interface:**Our website is super easy to use! You can navigate around effortlessly and find your ideal furry friend in no time.

- **Diverse Selection:** At AdoptaDoggo, we have a diverse selection of dogs from various breeds, ages, and backgrounds. Whether you're looking for a playful puppy or a loyal senior companion, we have the perfect match for you.

- **Support and Guidance:** Our dedicated team is here to support you every step of the way, from finding the right dog to providing ongoing guidance and resources for a successful adoption journey.

PROBLEM STATEMENT

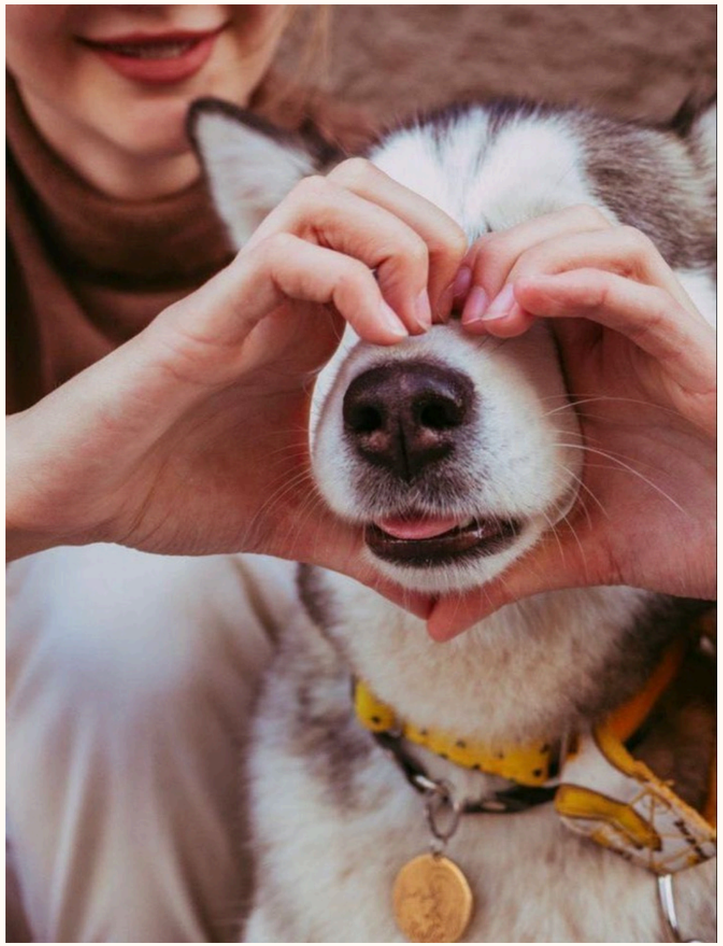
CHITKARA UNIVERSITY

- In many communities, street dogs face numerous challenges including hunger, disease, and mistreatment. While there are organizations dedicated to rescuing and rehabilitating these dogs, finding suitable adopters can be a significant challenge.

- Furthermore, potential adopters often struggle to find reliable resources to facilitate the adoption process.

- To address these issues, we aim to develop a website dedicated to street dog adoption using the React framework. The website will serve as a platform to connect rescue organizations, foster homes, and potential adopters, facilitating the adoption process and improving the lives of

MOTIVATION OF RESEARCH



- **Companionship:** Dogs provide loyal companionship and can become beloved members of the family.

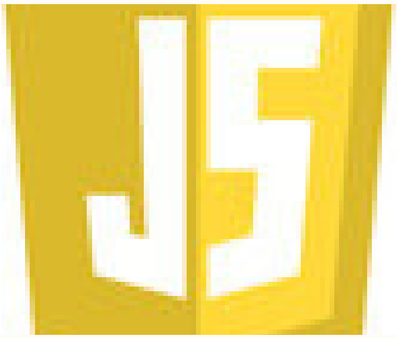
- **Alleviating loneliness:** Dogs can help alleviate feelings of loneliness and provide emotional support, especially for people living alone or experiencing difficult times.

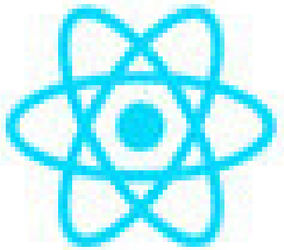
- **Saving a life:** Adopting from a shelter or rescue organization gives a dog a second chance at a happy life and helps reduce pet overpopulation.

Tools & Technologies

In this we have used :

- **React:**Used for building user interfaces (UIs) for web applications. React allows developers to create reusable UI components and manage the state of these components efficiently.
- **HTML**: It serves as the backbone of web development,providing the structure and content of web pages.
- **CSS:** It is used to control the appearance of html elements,includingcolors, spacesetc.
- **JavaScript:**Used for adding interactivity and dynamic behavior to web pages.





Why ReactJS Library?

CHITKARA UNIVERSITY

React is a JavaScript library for building user interfaces, featuring a component-based architecture that allows for reusable UI components. It uses a virtual DOM for efficient updates and rendering, and follows a declarative style, letting developers define the UI based on application state. Commonly used for single-page applications, React employs JSX, a syntax similar to HTML, to make component definition intuitive. It ensures unidirectional data flow for predictability and easier debugging. Developed by Facebook, React benefits from a large community and extensive ecosystem, and supports cross-platform development with React Native.

CONCLUSION

In conclusion, our pet adoption website stands as a testament to the power of technology in making a positive impact on the lives of animals and humans alike. Through our platform, we've not only facilitated countless adoptions but also fostered a sense of community among pet lovers, shelters, and volunteers. By promoting responsible pet ownership, celebrating success stories, and embracing innovation, we've created a space where compassion and empathy thrive.
